DESCRIPTION

This BH114 holder is made of thermoplastic, designed for 10x38 mm cylindrical fuses and allows for easy mounting on flat surfaces.

BH114 can be mounted on DIN Rail constructions.

SPECIFICATION

- Rated Voltage: 1100 Vdc
- Rated Current: up to 30A
- Dielectric Strength: >1200 V
- Torque: 2.3 N·m (20 in-lbs)
- Wire Range: 14-7 AWG (1.6-8.4 mm²)
- Clip/Terminals: Silver plated copper alloy
- Screw and captive pressure plate: Zinc-plated steel or iron
- Base: PA6+GF20-30%
- Operational Temperature: up to 125 °C
- Material Flammability: UL 94 V-0
